Brand New Book ***** Print on Demand *****.Excerpt from Tariff Chats How strange it is that any American citizen should say, when asked his views on the tariff question, I don t understand it. The tariff is a part of his taxes. It is the largest part of the tax he pays to the general government. If he is an average citizen, with an average family, this tax alone cost him \$i 8 last year, and costs him a little more or less than that every year, in support of the government alone, aside from any revenue to any private interest. Yet he confesses that he knows nothing about this \$18, of his own money, which he pays over to Uncle Sam. He doesn t know whether it is more or less than he ought to pay. He never asks whether the tax is so levied that he is paying more than \$18 - may be \$50 or \$100 - while some other and richer tax-payer gets off at \$5 or \$10. Would he spend money so blindly in any other way? When you ask him about the money he pays to Uncle Sam, he says he doesn t understand it. If you asked him about the money he bestows on his wife and children, would he look blank at you and confess, I don t understand it ? What would you think of him if he did? How long would you expect to see him out of the sheriffs hands? Now, all his taxes are a part of his expenses.
